

EMS EXPO 2008 is simply a memory and as the saying goes, “What happens in Vegas stays in Vegas”; however, we would like to add “except for what you learned at EMS EXPO”. Make sure to take your learnings, ideas and networking conversations and act on them by sharing with your EMS co-workers, friends, managers and community leadership.

It was our responsibility to present a great conference experience, and we trust we delivered on this commitment. Please take a few minutes to complete our [online post show survey](#) to share your comments, observations and ideas. Your overall experience is important to us.

Over 6,000 people registered for EMS EXPO 2008 and another 1,000 of our industry colleagues attended our co-located event, Firehouse Central. Thank you for making these conference programs and Las Vegas your travel destination. EMS EXPO again takes its place as North America’s single largest gathering of EMS Professionals with attendees from all 50 states, the District of Columbia and 32 international countries. EMS EXPO has clearly found its way to the world’s EMS stage.

Appreciation is extended to our conference sponsors, the National Association of Emergency Medical Technicians (NAEMT), and many supporting organizations to include the National EMS Management Association (NEMSMA). In addition, over 450 exhibiting companies were onsite to share their products and technology. Make sure to refer to our exhibitor page to find companies you would like to follow-up with or get more information.

Finally, be sure to make plans to join us in Atlanta at the Georgia World Congress Center for EMS EXPO 2009, October 26 to 30.

Stay safe,
